To all the Exhibitors a big thank you for your attendance.

What is the EMMETT Technique?

How it works:

The Emmett Technique is a form of body therapy involving light finger pressure at specific points. This neuromuscular therapy assists to reprogram and recalibrate muscle memory and actions. It is an understanding of the body's response to light touch and it has been suggested that the body reacts in a similar way to the workings of a touch-screen.

What can the EMMETT Technique be used for?

Using light touch EMMETT therapists may relieve symptoms such as:

- Neck and shoulder restriction
- Injuries from sport or accidents
- Lead / harness strain
- Lower back distress
- Inhibited movement
- Balance problems
- Poor performance
- Behaviour changes
- And much, much more.....

Key features of EMMETT Technique treatments:

- Accurate and fast assessments of body imbalances
- Can be done quickly and with minimal fuss to animal
- An animal showing discomfort may be reluctant to allow touch - Emmett therapists use minimal contact to create a positive change
- Relief may be instantaneous

Based in Australia, but now practiced and taught in over 40 countries worldwide
