WEIGHT PULL RULES TO NOTE

First Weight - The first weight offered to pull shall be the empty trolley. Thereafter weights shall increase as listed in Schedule

Commencement weight - Handlers can nominate at which weight their dog will enter the competition.

Passing Up - Once a dog has entered the competition and successfully pulled the nominated weight, handlers can pass up to three weight increment increases but must then compete in the fourth increment.

Handler - Once the dog is connected to the trolley, the dogs lead must be removed, and the handler must either proceed to and remain behind the handler line, or retreat to and remain in a position behind and to one side of trolley.

Commands - The handler is not permitted to hold any object, use bait, or any item to attract or encourage the dog other than voice commands. The handler must not physically touch the dog once the pull has commenced, until the pull has been completed, unless timing has been temporarily suspended to allow the handler to resolve a tangle..

Time - Once the handler has signalled the commencement of the pull, timing commences and the dog has sixty seconds in which to get the trolley moving. If at the conclusion of that sixty seconds the dog is pulling and the trolley is moving forwards the dog can continue to pull and so long as the trolley is in continuous forwards motion until crossing the finish line this shall be a qualifying pull.

Non Qualifying - If the trolley is stationary and has not crossed the finish line at the completion of sixty seconds, this will be a non qualifying pull.

Attempts - Each dog will be entitled to two attempts at each weight increment up to 500 kilos on natural surfaces and 800 kilos on artificial surfaces. Thereafter there will be only one attempt at each weight. Failure to register a successful pull in either of these attempts signals the removal of the dog from the competition

Disqualifications

Jumping/Bouncing/Charging – A dog may be disqualified from a pull at the Weightpull Marshall's discretion after 1 warning where the dog employs a technique which includes charging or jumping off the ground in an effort to move the trolley in a manner likely to cause injury in the opinion of the Marshall.

Aggression – Any dog which shows aggression is to be disqualified from the event and the matter is to be reported and handled in accordance with the relevant member bodies aggressive dog rules.

Classes

15<27kg

27<36kg

36<45kg

45kg and over

Weight Increases

Min 20kg to max 100kg

Trial increase is listed in schedule.

Surface

Natural – is deemed to be a level surface of sand, grass or other naturally occurring material which is in its normal condition and not artificially compacted. The surface may be raked to ensure evenness of the ground

Artificial – is an area which has been levelled and compacted by artificial means or has been covered with a material to make it harder. Examples of artificial surfaces include but are not limited to concrete, asphalt, timber and compacted rubble.
